SUMMARY

Final-year Computer Science student and aspiring **Full Stack Developer** with hands-on experience in **React.js, Node.js, Express.js, MongoDB, Django, and REST APIs**. Skilled in building responsive web applications, developing backend services, working with databases, and deploying real-world projects. Also familiar with **machine learning** and **data analytics** using **TensorFlow** and **Power BI**. Seeking internship or entry-level roles in Full Stack Development, Software Development, or Web Development.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), SQL, Java, C, HTML5, CSS3
 - **Frontend:** React.js, Bootstrap, Responsive UI Development
 - **Backend:** Node.js, Express.js, Django, REST API
 - **Databases:** MongoDB, PostgreSQL, MySQL
 - **Data & ML:** TensorFlow, Power BI, Scikit-learn, Excel, Librosa
 - **Tools:** Git, GitHub, VS Code, Render, Vercel
-

TECHNICAL PROJECTS

AI-Powered Internship Management and Resume Analysis System | *React.js, Node.js, MongoDB, ML* | [Live Link](#) | [GitHub](#)

- Built a full-stack platform to streamline the internship lifecycle, including student applications, mentor/admin workflows, automated document generation (NOC/LOR), and AI-based resume scoring with improvement suggestions.
- Deployed the Frontend on Vercel and Backend/AI services on Render

Full-Stack E-Commerce Store | *Django, PostgreSQL, Render* | [Live Link](#) | [GitHub](#)

- Developed a scalable e-commerce platform with product management, cart functionality, checkout, and **automated invoice generation**.
- Deployed on **Render** using PostgreSQL for robust data management.

Plant Disease Detection (Computer Vision) | *Python, CNN, TensorFlow* | [Report](#) | [GitHub](#)

- Developed a Deep Learning (CNN) model for real-time **crop disease identification**.
- Integrated a web interface for seamless image upload and classification.

Urban Sound Classification | *Python, Librosa, ML* | [Github](#)

- Implemented **MFCC feature extraction** to classify urban sounds with high precision.
 - Optimized neural network layers for diverse noise profile handling.
-

EXPERIENCE

Data Analytics Intern | *E2E Program (SAP Foundation)* | **2024 – 2025**

- Analyzed data pipelines and created business dashboards using Power BI.
 - Focused on **Data Engineering** workflows to optimize reporting.
-

EDUCATION

- **B.Tech (CSE)** | ITM SLS Baroda University | **CPI: 8.69** | **2022 – 2026**
 - **HSC (XII)** | Shree Ram Hindi Vidyalaya | **75%** | **2021 – 2022**
-

CERTIFICATIONS

- Data Analysis & Visualization (Coursera)
- Python for Data Analytics (Coursera)
- Code Unnati Program (SAP & Edunet)
