SUMMARY

Computer Science Engineering Graduate (PDC available) and Full-Stack Developer specialized in building robust, high-performance web applications using React.js, Vite, Node.js, and Django REST framework. Demonstrated production experience through a Frontend Developer Internship at Patrixel Digital Solutions, engineering responsive UI interfaces, building full-stack platform features like AI-powered resume analyzers (IntelliResume) with Django backends, integrating RESTful APIs, and optimizing state management. Adept in relational and non-relational database design (PostgreSQL, MongoDB), microservices, containerization (Docker), and cloud deployment pipelines (Vercel, Render).

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, Java, PHP, SQL, HTML5, CSS3
- **Frontend Architecture:** React.js, Vite, Next.js, Vue.js, Redux Toolkit, Context API, Zustand, Tailwind CSS, Material-UI, Bootstrap
- **Backend:** Django, Django REST Framework, Node.js, Express.js, FastAPI, Spring Boot, RESTful APIs, GraphQL, WebSockets, Microservices
- **Databases & ORMs:** PostgreSQL, MongoDB, MySQL, Redis, DynamoDB, Prisma ORM, Django ORM, Mongoose, Sequelize
- **DevOps & Infrastructure:** Docker, Git, GitHub, GitLab, Vercel, Render, AWS (EC2, S3, Lambda), Netlify, Firebase, GitHub Actions, Postman
- **Data & Machine Learning:** Power BI, TensorFlow, Scikit-learn, Excel
- **Testing & Tools:** Jest, React Testing Library, Cypress, VS Code

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | Patrixel Digital Solutions | Vadodara, GJ | July 2026 – October 2026

- Architected full-stack features for IntelliResume (AI/ATS resume analysis platform) using React.js, Vite, Tailwind CSS, Python, and Django REST framework.
- Developed interactive UI modules, including real-time AI Chatbot interfaces, ATS scoring dashboards, JWT authentication workflows, and React Router DOM navigation.
- Engineered scalable Django REST APIs and optimized Django ORM database schemas, collaborating with cross-functional teams to boost client-side rendering speed and cross-device responsiveness.

Data Analytics Intern | E2E Program (SAP Foundation) | 2024 – 2025

- Designed interactive business intelligence dashboards in Power BI to analyze operational metrics and key performance indicators.
- Executed data transformation workflows and ETL pipelines to optimize reporting efficiency.

TECHNICAL PROJECTS

AI-Powered Internship Management and Resume Analysis System | React.js, Node.js, MongoDB, ML | [Live Link](#) | [GitHub](#)

- Built a full-stack platform to streamline the internship lifecycle, including student applications, mentor/admin workflows, automated document generation (NOC/LOR), and AI-based resume scoring with improvement suggestions.
- Deployed the Frontend on **Vercel** and Backend/AI services on Render

Full-Stack E-Commerce Store | Django, PostgreSQL, Render | [Live Link](#) | [GitHub](#)

- Developed a scalable e-commerce platform with product management, cart functionality, checkout, and **automated invoice generation**.
- Deployed on **Render** using PostgreSQL for robust data management.

Inventory Management System | React.js, Node.js, Express, MongoDB | [Live Link](#) | [GitHub](#)

- Built an interactive inventory web app with secure **authentication** and **real-time stock tracking dashboards**.
- Integrated **data visualization** to track sales and purchase metrics, optimizing backend queries for performance.
- Deployed the application on **Vercel** to ensure seamless, continuous integration and delivery.

EDUCATION

- **B.Tech (CSE)** | ITM SLS Baroda University | **CPI: 8.73** | **2022 – 2026**
- **HSC (XII)** | Shree Ram Hindi Vidyalaya | **75%** | **2021 – 2022**
- **SSC (X)** | Shree Ram Hindi Vidyalaya | **83%** | **2019 – 2020**
